# What is Government Delivery 3.0?

OCIO

# Government 2.0 is largely digitized and social

# Gov 2.0 at USDA

# Examples of Gov Delivery 3.0 at USDA

Drones, Machine Learning, and AI to provide real-time data on food contaminants

Using Satellites and Open Data to reduce water waste and increase crop health

Helping fuel management and reducing prep time for US firefighting teams

## How can Government and Industry get to 3.0?

**Listen to Users**

**Demos, not Memos**
